## **SUMMARY**

Computer Science and Engineering graduate from Acharya Institute of Technology with expertise in full-stack development and scalable solutions. Experienced as a Software Developer Engineer at JoboxHire Pvt. Ltd. and Japan Grab Technology, proficient in TypeScript, Next.js, Prisma, and Tailwind CSS. Skilled in cloud computing, decentralized systems, Docker, AWS, and team leadership. Passionate about driving innovation and maintaining high code quality.

#### PROFESSIONAL EXPERIENCE

#### **Software Developer Engineer**

Joboxhire Pvt. Ltd. | Sept 2023 – May 2024 | Bangalore, India

- Led a team of 20 professionals in the complete software development lifecycle, from ideation and design to deployment and maintenance, ensuring alignment with business objectives and user needs.
- Successfully onboarded and mentored 10 skilled engineers, fostering a collaborative environment that promoted knowledge sharing and innovative problem-solving
- Developed and optimized full-stack solutions utilizing the T3 Stack, resulting in a 15% reduction in page load times and significantly enhancing overall user experience.
- Architected and implemented complex components, including a robust messaging service powered by RabbitMQ, which improved real-time communication capabilities across the platform.
- Engaged in continuous learning and research to stay updated on emerging technologies and industry trends, contributing innovative ideas that drove project success and team efficiency.
- Spearheaded quality assurance processes and established coding standards, leading to a notable decrease in bugs and an increase in system reliability, which bolstered customer satisfaction.
- Conducted regular code reviews and performance evaluations, promoting best practices in coding and design patterns among team members to enhance code quality and maintainability.

#### **Software Developer Engineer**

Japan Grab Technology | June 2023 – Sept 2023 | Bangalore, India

- Developed software solutions that improved system efficiency by 20%.
- Collaborated with cross-functional teams to deliver new features aligned with client requirements.
- Mentored junior developers, fostering their growth and increasing team productivity.
- Delivered 4 major software releases on time and within budget.
- Direct interaction with client and making the product according to SRS.

## **Software Developer Engineer(Freelance)**

Acharya Institute | Jan 2021 – Dec 2023 | Bangalore, India

- Built Decentralized storage web application which stores data on IPFS.
- Collaborated with a team to build ERP system.
- Conducted UI/UX designing bootcamp.
- Collaborated on building event management web and app.

#### **EDUCATION**

# Bachelor of Engineering (B.E.) in Computer Science and Engineering

Acharya Institute of Technology, Bangalore (2019 – 2023) GPA: - 7.1

**Diploma in Computer Science and Engineering** 

Acharya Institute of Technology, Bangalore (2016 – 2019) GPA: - 7.4

## **TECHNICAL SKILLS AND TOOLS EXPERTISE**

Languages: C, TypeScript, SQL, JavaScript, Python

Frontend: Next.js, Tailwind CSS, TRPC, React Native Expo, Redux, Figma (UI/UX) Backend: Prisma,

Nest.js, Node.js, REST API, GraphQL, Microservices, Django Stacks/Frameworks: T3 Stack,

MERN Stack, Mono repo Architecture **Databases**: Postgres, SQL, MongoDB

**DevOps**: Docker, AWS, Linux, Git, CI/CD (GitHub Actions), Terraform **Tools**: Git, Postman, Figma, Discord, VS Code, Android Studio, Expo

# **KEY SKILLS**

Leadership and Team Management, Full-Stack Development, Problem-Solving and Critical Thinking, Software Quality Assurance, Time Management and Efficiency
